## Forestry Subcommittee meet to discuss proposed off road vehicle park

By Boyd Monte

The Forestry MRA Subcommittee met with WORPVI on Monday, October 27. The agenda for the meeting was simple. First the committee was reviewed the amendments to the 15 Year Comprehensive Land Use Plan. Then, the subcommittee also planned to review the MRA studies, goals and plans.

Dave Ziolkowski started the meeting with a hand out of the amendments that needed to be changed. He had clearly marked which amendments had to deal with the MRA park. The rest of the amendments that were listed needed to be updated to be accurate with our growing county forest. Dave also stated that, "I would like to get comments and concerns from everybody, see if there are more additions or corrections to the proposed amendments, make another draft of the amendments to be presented to the Forestry Committee and then the county board. If the amendments are approved by both the Forestry Committee and the full county board, we need to do a two week public notice in the local papers and have a public hearing or informational meeting."

Craig Williams of the Wisconsin Department of Natural Resources stated that some of the amendments were going to raise concerns because it did not have specifics such as where it will be located, how big will it be and what is the specific purpose of the MRA park."

Dave Ziolkowski confirmed that Craig was correct that the forestry department will need to know the specifics such as the site and the size, possible fees for using the park and how many people it will accommodate at one time. The forestry committee will be able to make a better amendment to the 15 year plan if they have a better idea of WORPVI's vision of what they want the park to be.

President of WORPVI, John Schnorr, said that he was on vacation the previous week and was not able to look at the amendments. He said that he would have a meeting with the rest of WORPVI and layout a concept plan of what WORPVI's vision of the park will be. Schnorr also said that he will send a copy of plans that he has to the Forestry Committee.

The next forestry committee meeting will be on November 17 at 4 p.m. and the next forestry subcommittee meeting will be held December 9 at 5 p.m.

## Memorial bricks remember our veterans

Commemorative bricks inscribed with the names of U. S. servicemen and women, symbolizing the support for the Armed Forces are for sale in Wabeno. Bricks are laid in front of the boulder and flags at the Veterans War Memorial Park in Wabeno. It's an act of respect to those who have served and are serving their country in all the branches of military service over the years. The Memorial Park is a result of much planning and fundraising by the American Legion Post 44. The bricks under foot are a time to remember and reflect all it means to veterans who have served and their families.

Memorial bricks can be purchased by calling Byron Erdman, 715-276-7519, or by contacting a Legion member who can give you the information needed. Bricks make a nice gift for loved ones. You will also receive a certificate which can be framed.

## Kim Teschner Benefit Saturday, November 1st in Crandon

On July 20, 2014, Kim (Webb) Teschner was rushed to the E.R. in Antigo, WI. The healthy, active, mother of 2, was showing all signs and symptoms of a stroke at the young age of 28. After some testing and observation she was airlifted to U.W. Madison and admitted into the NUERO ICU where she spent the next couple days being tested and monitored closely by numerous specialty doctors before being released. Kim received news of her test results and learned she did not suffer a stroke, but instead was diagnosed with Multiple Sclerosis. Unfortunately, Kim has no medical insurance and is unable to work. She has a long road of ups and downs ahead of her. A benefit is being put on by her family and friends hoping to relieve some worry, stress, and financial burden she has been faced with.

The benefit for Kim (Webb) Teshner will be held on Saturday November 1 at the Crandon Community Building. The event starts at 3:00 p.m. There will be a spaghetti dinner with garlic bread, salad, dessert and coffee or soda for \$7.00. There are numerous prizes for raffles including four tickets to a Green Bay Packers game, a jiffy ice auger and a women's diamond necklace.

## Crandon Middle School Wreath Fundraiser

The Crandon Middle School wants you to have a nice-smelling balsam wreath in your home for the holiday season. The made-in-Wisconsin wreath is about 24 inches in diameter and larger, and will range in price from \$30 to \$125.

The proceeds will help students earn their trip to Spain and Rome. If you would like to purchase a wreath and help the kids gain an educational trip to Europe, call Kevin at 715-889-0964 or Eunice at 715-649-3141.

## U.S. Forest Service seeks proposals to expand markets for wood energy and products, provide new jobs

**Forest Service's Wood Innovations Program to provide roughly \$5 million to help create new products**

WASHINGTON, Oct. 27, 2014 – The U.S. Forest Service today published a Federal Register Notice seeking proposals to expand wood energy and wood products markets to support sustainable forest management, especially in areas of the country with high wildfire risks.

"We must continue to find new, economically valuable ways to use wood," said U.S. Forest Service Chief Tom Tidwell. "The biggest threat to forests is conversion to non-forest use. Harvesting wood can be used to help forest managers protect forests from hazards, such as insects, disease and fire."

Proposals will be evaluated through the agency's Wood Innovations program, which will provide roughly \$5 million to help successful applicants increase or stimulate markets for wood energy and wood products in a manner which helps enhance forest sustainability while providing useful products and jobs for people.

The funding is available for a diverse range of activities such as completing the final engineering design for a renewable wood energy system or establishing statewide wood energy or wood utilization teams to demonstrating wood as a primary building material in commercial construction.

Bioenergy is the use of organic material, such as materials from forest thinning, residues, agricultural waste or urban wood waste, to generate heating, cooling and/or electricity.

Since 2005, more than 160 grants, typically for individual projects, have been awarded to small businesses, non-profits, Tribes, and State and local agencies to improve forest health while creating jobs, green energy, and healthy communities. Since 2013, 16 cooperative agreements with individual states have been awarded to establish Statewide Wood Energy Teams that promote conversion of fossil fuel systems to wood energy for heating, cooling, and electricity.

The deadline for proposals is January 23, 2015. Information on how to apply is available in the notice.

Today's announcement also supports objectives identified in the White House Council on Environmental Quality's recently released Climate and Natural Resources Priority Agenda.

**Red Arrow Booyah was a great time & great food**

Red Arrow Snowmobile ATV Club held its 2nd Annual Family Fun Booyah Party Saturday, October 11th at Old Town Hall Sports Bar & Restaurant in Townsend. The fun began at 6:00 in the morning when Josh Banie, (owner of Sports Bar) started the fire under the 50 gallon cauldron to begin turning water, chicken, vegetables and the rest of the secret recipe that goes into some of the finest Booyah in N.E. Wisconsin. Shortly after the fire was going, master Booyah chef Holly and her mentor (dad) began to stir the pot. First the chicken went in, then it was chop, chop and the rest of the recipe went in to create the "brew" that would simmer most of the day.

The club held a membership meeting at 11:00 a.m. followed by a trail ride with about 25 ATV/UTV riders at noon. Led by Bruce Ashbaugh riders rode through some of the most scenic and colorful trails in the area. Around 2 p.m. the hungry riders returned to the restaurant to find the aroma of Booyah in the air and the sound of music and meat raffles. As folks walked into the Old Town Hall Sports Bar they were meet by "a little green leprechaun", who was handing out door prize tickets for the event. As they say, "fun was had by all" with the D.J. Music, lots of food and liquid refreshments, free door prizes, raffle winners and a kids bounce house making for a great fall day in northern Oconto County.

All funds raised from the event will go towards the purchase of an ATV drag to keep our trails in the great shape riders expect.

Remember all ATV/UTV trails close in Oconto County at midnight on Friday October 31st. Some area township roads remain open year round so inquire locally for legal riding. Check for up to date club and trail information in the Townsend area.

## Worksite Wellness Initiative

The Forest County Health Department and the Forest County Coalition for Activity and Nutrition have been working to educate the community and local businesses on the importance of worksite wellness. A worksite wellness program is an organized program for employees designed to enrich their physical, mental, emotional, and occupational well-being. Most adults spend more of their waking hours at their work place than anywhere else, making it a prime venue for healthy habits.

In August, four businesses attended a Worksite Wellness Work Shop and received information and materials to do the "5 a Day Challenge". This was a month long challenge that focused on eating more fruits and vegetables. Participants recorded how many servings of fruits and vegetables they had each day and were eligible for a prize drawing at the end of the month if they turned in their completed log. 52 people participated in the challenge. There will be another challenge starting in November to help "Freeze the Gain" over the holiday months. Stay tuned for more information.

### Ed Smith INSURANCE TIP LOGGER'S GENERAL LIABILITY

Why do I need it? Did you ever fall a tree and have it not go where you thought it would? GL will cover damaged property, power lines or trucks that are in its path. It would cover injury of a person who is not an employee.

Did you ever leave your equipment or skidders on a job site to come back the next day and find someone was in the area and messed with your equipment? You could be sued if someone got hurt while you're not there. That is completed operations coverage. This also would apply to your log piles if a hunter would climb on them. ## 4K-12 Homecoming Carnival at the School District of Crandon

On Wednesday, October 1, 2014, the School District of Crandon partnered with the community to, celebrate the fall sports season with a carnival that was open to all students and their families. Due to the rain, the event which is usually held outside was quickly moved in where the students and their families enjoyed games, face painting and a photo booth. Two fourth grade students from Mrs. Walentowski's class, Maya LeMaster and Tabitha Marvin tried out the photo booth, where they were having a great time, checking out how they would look with a sporty new mustache!

Upcoming Event

### 4K-12 Community Halloween Party and Dance

Mark your calendars for the Family Engagement Team's first fun filled family event of the year which will be on Halloween night, October 31st from 6:30 to 9 p.m. at the School District of Crandon. This event is running in conjunction with the high school Haunted House which is also held at the school on the elementary school side of the building. With Halloween being on a Friday this year, the team thought it would be a nice celebration to have some fun after Trick O' Treating was finished so the students would have a warm and fun place to hang out.

**FOOD FOR THOUGHT: Advice is something we give by the bushel, but take by the grain.**

## Tanner the Runner Cont. from pg. 1

On Friday October 24, 2014 history was made. Tanner Moris (sophomore) qualified at the Wisconsin Sectional Cross Country (C.C.) running meet in Athens, WI to advance to the State meet in Wisconsin Rapids on November 1st. Tanner is the first runner in Crandon High School history to advance to the State level.

It was 1998 when the first C.C. team was started at Crandon. His time for the 3.1 mile (5 km) race was 17:47. Tanner's hope is that this moment will inspire other student athletes to break through their limiting beliefs, to believe in themselves and chase their dreams. If Tanner did this so can they. Being a winner at anything is a choice, but is possible for anyone. Being successful at anything will always require your best efforts in self-discipline, persistence, hard work and a positive attitude. This story is about the power of a dream and the importance of painting a vision of what you want to accomplish.

Tanner's dream of qualifying for the state Cross Country (C.C.) meet started last fall at the State C.C. meet when he attended as a spectator with Coach Jessica Keao. That experience was so impactful that he came back a different person. The first thing he said when he returned home was, "I really want to compete at the state C.C. meet next year." Tanner's Dad, Tom helped him set a goal and develop a game plan to do just that. Tanner systematically trained for this moment over the last 6 months. "You see, you can't change your destination in a day, but you can change your direction."

Tanner's goal between June and the end of August, was to run 300 miles. He was plagued with injuries on an almost weekly basis throughout the last 6 months, but he did hit the 200 mile mark. It wasn't until recently that it was figured out that most of his injuries stemmed from an injury three years ago, when he fell off a garage roof onto concrete. Although he landed on his feet, the jarring that occurred manifested into a snowball effect on his tendons and muscles in his right hip and leg. Currently professional treatment is correcting the problems, and his injuries have mostly disappeared. He is expected to make a full recovery. Tanner would like to acknowledge everyone who helped him along the way including his parents, team mates and coaches (Jessica Keao and Josh Jaeger). Tanner's family, friends and coaches are very proud of his accomplishment.

Congratulations to Tanner for all his hard work and a job well done!

Presley Keeble was nominated for "Student of the Week" for October 27-31 by Mrs. Boor. Presley was nominated for her outstanding play on October 23 vs Oconto. On a night when nerves could factor into the equation, Presley stood strong and delivered her best game of the season. Presley was confident and executed the game plan with few flaws. As the match came to a close, Presley added 7 kills to the final stat sheet. For the first time this season Presley led the Rebels hitting percentage and proved she could perform extremely well under pressure. Congrats on your best performance of the season!  
 Presley is the daughter of Jeff and Betty Keeble from Carter. Her interests include sports, Instagram, playing Diplomacy and spoons, and watching Wreck it Ralph. Presley plans to pursue a career in photography after graduation.

**Crandon Water Show receives grant from FCTC**  
 Crandon Water Shows recently received their promotion grant for the 2014 Footstock from the Forest County Tourism Commission. The group applied for this grant earlier this year to help promote and increase the participation in this event, which takes place annually in August.  
 Several worthwhile promotions and projects were funded by the Commission throughout the year. These funds are generated through the collection of room tax dollars by participating municipalities and townships in Forest County. The Commission accepts applications for promotional grants during the months of May and June each year. For further information, contact Melinda Otto at (715) 478-3450.

### Q&A: Fall Harvest Safeguards

Submitted by Kate Schultz

There's no doubt that vegetables and fruit are good for you, but how do you store and prepare them safely? Here are some answers to common questions.

**Q: Is there any harm in eating overripe vegetables or fruit?**

A: If it's ripe, but not bruised, it's OK to eat - to a point. If you see mold on the surface, toss it. Also, bacteria can build up quickly on damaged or bruised vegetables and fruits. Remove the bruised section before eating.

**Q: Do you have to wash fruit and vegetables?**

A: Yes, wash them even if you plan on peeling them. Wash your hands before and after handling produce. **Exception:** You don't need to clean bagged produce (mixed green or fresh spinach) labeled prewashed or triple washed.

**Q: What should I wash them with?**

A: Plain water is fine. Use a clean produce brush to scrub firm produce, such as melons and cucumbers.

**Q: How can I avoid cross-contamination?**

A: Separate fruits and vegetables that will be eaten raw from other foods such as raw meat, poultry or seafood to avoid cross-contamination. Wash cutting boards, dishes, utensils and countertops with soap and hot water after preparing raw meat, poultry and seafood.

**Q: How do I store fruits and vegetables?**

A: Store perishable fruits and vegetables at temperatures of 40°F or below. **Note:** Refrigerate all produce that is purchased pre-cut or peeled.

### Found Moments featured in Nicolet College Art Gallery

The Blue Door by Sharon Feathers is just one of many pieces on display in the Nicolet College Art Gallery through Nov. 9.

Three Central Wisconsin artists who capture moments often missed have their artwork on display in the exhibit Found Moments: Painting, Photography and Sculpture in the Nicolet College Art Gallery.

Award-winning photographer Sharon Dowis is noted for taking images that surprise, amuse, and delight. Her work has been exhibited both nationally and internationally.

Sharon Feathers is a retired teacher now pursuing her interest in art through travel. Her experiences around the world have given her many opportunities to take beautiful photographs, which she uses as reference material for her paintings.

Patrick Plunkett is a retired manufacturing engineer who uses his skills to create metal sculptures and paintings with both serious and whimsical themes.

The exhibit runs through Sunday, Nov. 9. A closing reception will be held on that day from 12:30 p.m. to 1:30 p.m. in the gallery, preceding the Nicolet Players final performance of The Game's Afoot at 2 p.m. in the adjacent Nicolet College Theatre.

The Nicolet College Art Gallery, located in the Learning Resources Center, is open 8 a.m. to 8 p.m. Monday through Thursday, and 8 a.m. to 4 p.m. Fridays and Saturdays.

Admission is free to the gallery and closing reception. Tickets to the play are \$7 and \$9 and can be purchased online at nicoletlive.com or by calling (715) 365-4646.

The Nicolet College Campus is located one mile south of Rhinelander just off of Hwy. G.

## Forest County working together on joint Ebola planning

Forest County— Public health, Tribal health partners, Clinics, EMS, Emergency Management, in collaboration with the Wisconsin Department of Health Services (DHS), are preparing in the event the Ebola virus is diagnosed here. "Preparing and collaborating on the federal, state, and local level will ensure that the public and health care providers receive prompt public health information," said Jill Krueger, Forest County Health Department Director.

"People are naturally concerned about the Ebola virus, especially with the cases recently diagnosed in the United States," said Krueger. "While we work together to prepare, it's also important to reassure the public that Ebola can only be transmitted through contact with the body fluids of people who are sick with the virus, or who have died from it. Ebola cannot be transmitted through the air."

Health care workers and first responders are keenly aware that they must be especially vigilant with following rigorous safety practices in the event they are ever called on to assist or care for an Ebola patient.

"Our health care workers take preparedness seriously," said Krueger. "We are following current safety practices for putting on and taking off personal protective equipment. We will continue to review and update our plans for transporting and isolating a patient with Ebola, and we continue to practice the best methods of sanitation, including the disposal of waste."

"We want to stress that there are no reported cases of Ebola in Wisconsin, and the risk of contracting it remains extremely low in Wisconsin," said Karen McKeown, State Health Officer. "DHS remains vigilant in its monitoring of the Ebola virus, and will continue to provide our partners and the public with the most current information and guidance concerning this disease."

For more information about the Ebola virus and Wisconsin's preparedness efforts, visit: <http://www.dhs.wisconsin.gov/communicable/diseasepages/ebola.htm> or [www.cdc.gov](http://www.cdc.gov) or [www.forestcountypublichealth.org](http://www.forestcountypublichealth.org).
