79 cases of covid-19 (12 active) confirmed in Forest County

Forest County Public Health officials have confirmed additional persons have been diagnosed with novel coronavirus infection (COVID-19) for a total of 79 cases in Forest County. The individuals are isolating at home. No further information will be released to protect the confidentiality of the individuals. County health officials and local partners are contacting others with whom the individuals who tested positive had close contact with. As of today, Forest County has 1,969 negative test results and 12 pending. There are currently 10 cases in isolation, 2 hospitalized, 63 released from isolation, and 4 deaths.

The Forest County Health Department encourages community members to minimize their contact with others by staying home when possible, practice physical distancing and good personal hygiene, wear a mask or cloth face covering, and stay alert for symptoms of COVID-19. If you are experiencing any symptoms or have been exposed to someone with COVID-19, please contact your health care provider and ask to be tested.

In an effort to keep our community members up to date on COVID-19, the Forest County Health Department will continue to update our Facebook page daily and local newspapers weekly with current COVID-19 case counts. This will include the number of negative and positive cases in Forest County. Please call our office at 715-478-3371 with any questions or concerns.

Local Forest History featured in Webinar Series

The Forest History Association of Wisconsin will offer a series of eight webinars on topics with ties to the Northwoods area. This organization has sponsored a Fall Conference featuring local forest history for each of the last 44 years, at locations that shift to cities around the State. This year's conference that had been planned for offering at Trees for Tomorrow in Eagle River was cancelled due to the pandemic, and will now be offered in a series of on-line offerings beginning in mid-September.

Topics covered will address issues such as; the decline in 'Canoe Sized' White Birch from modern forest practice, --- the Thunder Lake Narrow Gauge RR System that hauled "logs, pulpwood, potatoes and lumberjacks" between Rhinelander and the Three Lakes and Eagle River Chain of Lakes area, --- and the story of "Elk before European Settlement in Wisconsin".

A complete listing of topics for this free webinar series, along with the opportunity for sign-up is posted at the Forest History Association of Wisconsin website www.foresthistorians.com

Conservation Corner

Conservation Corner is a weekly article produced by the Forest County Land & Water Conservation Department. For more information contact Steve Kircher, County Conservationist-Land Information/GIS Director at 715-478-1387 or by e-mail at lcc@co.forest.wi.us.

Most landowners are familiar with the garden-variety pollinators – the most common, of course, is the honeybee. But, did you know there are many other pollinators? Woodland owners are starting to learn about the benefits of broadening the pollinator profile.

While honeybees account for approximately 75 percent of crop plant pollination and many tree species count on wind pollination, several other animals and insects help pollinate grasslands and forests. These pollinators include birds, bats and other mammals. There are also lizards, flies, moths, butterflies and beetles, and more than 4,000 native species of bees in the U.S., like mason, sweat and carpenter bees.

This is why conservation districts in a number of states are beginning to explore management plans that incorporate woodland pollinator habitat. "Woodlands and agroforestry practices provide important habitat for wild bees, bats, butterflies and other pollinators and they are vital for safeguarding ecosystems, for biodiversity and for crop production," said Gary Bentrup, research landscape planner at the USDA National Agroforestry Center.

Research shows that the abundance and number of pollinator species increase in forestland when there are openings in the canopy. Additional studies conclude that prescribed burns provide new territory and nutrients for woodland pollinators that assist in understory regeneration, which ultimately can help in forest restoration efforts.

USDA implements measures to help rural residents, businesses and communities affected by COVID-19

WASHINGTON, Sept. 1, 2020 – USDA Rural Development has taken a number of immediate actions to help rural residents, businesses and communities affected by the COVID-19 outbreak. Rural Development will keep our customers, partners and stakeholders continuously updated as more actions are taken to better serve rural America.

Visit www.rd.usda.gov/coronavirus for information on Rural Development loan payment assistance, application deadline extensions and more.

COVID-19 RESOURCES

On April 13, 2020, USDA unveiled a one-stop-shop of federal programs that can be used by rural communities, organizations and individuals impacted by the COVID-19 pandemic. The COVID-19 Federal Rural Resource Guide (PDF, 349 KB) is a first-of-its-kind resource for rural leaders looking for federal funding and partnership opportunities to help address this pandemic. On May, 4, 2020, USDA released a summary of key service changes to increase the use of telehealth in response to the COVID-19 pandemic. These changes will help ensure that more rural residents can access care when and where they need it during this pandemic. This summary is intended to help interested parties understand the telehealth changes that have been made and explore new ways to support health care providers as they increase or transition to virtual care services.

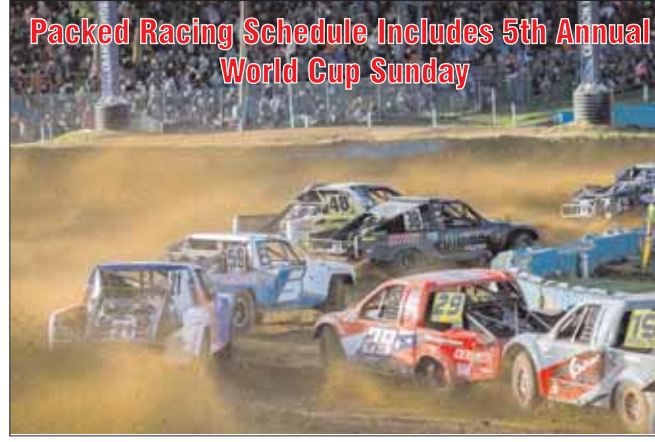

Wisconsin Face Mask Warriors donate to Crandon school

From left to right, Kathy Cutforth, Northwoods Wisconsin Face Mask Warriors representative, Larry Palubicki, district administrator, Ryan Ourada, director of curriculum and instruction, and Shari Alloway, Native American student support and Mask Warriors volunteer, display donated face masks in front of the Crandon High School. The School District of Crandon received a donation of 200 homemade face masks Aug. 27 in sizes ranging from 4K to adult.

Northwoods WIFMW is a nonprofit based in Rhinelander that makes and donates quality handcrafted face masks to essential workers and vulnerable populations in Oneida, Lincoln, Langlade and Forest Counties. Crafters and other volunteer are currently needed to meet the demand for masks in schools. To submit a request for masks, or to volunteer or donate supplies, go to its Facebook page at <https://www.facebook.com/groups/northwoodsfacemasks>.

Crandon Off-Road World Championships Labor Day Weekend

It has been almost a full year since Crandon International Raceway fans have been able to enjoy the visceral excitement of world class off-road racing at the sport's most celebrated and historic track. Thankfully for many, that wait will end in a major way just in time for next weekend's Labor Day holiday weekend.

Crandon's massive golden gates are set to finally open for excited guests on Wednesday, September 2nd for the 51st annual Polaris Crandon World Championship Off-Road Races. The news comes just weeks after the track announced that both of its upcoming September off-road racing events will take place in the Northwoods of Wisconsin. June's rescheduled 27th Forest County Potawatomi Brush Run weekend, normally the traditional Midwest off-road season kick-off, is set for the Crandon "Big House" September 25th - 27th.

Off-road racing's oldest and most historic short-course event, the Polaris Crandon World Championship Off-Road Races will see its grass-filled Camp Crandon open on noon, Wednesday, September 2nd. A full day of practice on Thursday will be the perfect prelude to a packed weekend of 26 Champ Off-Road Pro and Sportsman class races as well as two feature events for Ultra's King of the Hammers stars on Saturday night and Sunday.

For the fifth time since its inaugural running in 2016, on September 6th Crandon International Raceway will once again host its annual "World Cup Sunday." Created as a non-denominational "Super Bowl" of short-course off-road racing, the Crandon World Cup has been instrumental in bringing together the world's best Pro category racers from the west coast and Midwest for one special day of all-out, no points competition. 2020's Crandon World Cup will feature eight races to crown Crandon World Champions in Pro 4, Pro 2, Pro-Lite, Pro Buggy, Ultra4, Pro Mod SxS, Pro Stock SxS and Pro 450 Mod Kart categories.

The weekend will culminate in the always dramatic Crandon Cup race, an all-out competition that pits unlimited Pro 2 versus Pro 4 trucks in a staggered time start. Last year California short-course phenom RJ Anderson took home a whopping \$50,000 first place cash prize as well as a custom engraved Henry rifle as the Crandon Cup's big winner.

Another crowd favorite is sure to be Saturday night's one hour Ultra4 race. Held at Crandon's revised Ultra Cross Course (located just east of Camp Crandon), last year's inaugural event was an unexpected success as the highly modified all-wheel drive unlimited Ultra 4 vehicles took on massive rock obstacles, twisting forest trails and parts of Crandon's legendary short-course track all under the lights.

"In so many ways this year has been challenging to our racers, fans and corporate sponsors...and that's an understatement," explained Crandon International Raceway President Cliff Flannery. "All we can do now is to go racing Crandon style come Labor Day weekend. Sure, there will be some changes here at the track, but the bottom line is that we are going to hosts our guests the best way we possibly can -- just like we have for the last 51 years. It's time for all of us to enjoy some fun with family and friends."

Crandon International Raceway released a comprehensive 2020 COVID-19 operational plan to local law enforcement and health officials, as well as fans, racers and corporate partners, on its new website at www.crandonoffroad.com. Series officials in the Champ Off-Road and Ultra4 series will also be working closely with Crandon officials to ensure that all phases of the race weekend protocols are executed in an integrated manner. The staff at Crandon International would like to express our appreciation to Forest County Sheriff John Dennee and Health Director Jacee Shepard for helping make the 2020 season at Crandon possible.

K9 Donation Cont. from pg. 1

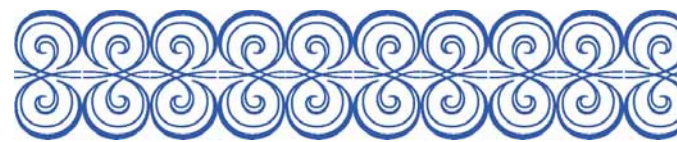

The Forest County K9 Unit have started their efforts to purchase a new K9 to replace the Mec. Mec will be retiring next year.

Randy and Ann Fenwick along with Crandon Docks and Lifts, Yetis and Best Car Wash in Crandon made donations to help the unit replace Mec on the force.

The cost of getting a K9 trained and ready to serve costs thousands of dollars. Any donations helps a department offset the cost of this vital part of the department. If you are looking for a great cause to donate to, this is one to consider.

Officers DJ Wilson, Ryan Wilson Bill Hujet and Police Chief Dan Packard accept a donation from Bob Erdmann of Crandon Docks and Lifts

New sign at Happy Tails

Happy Tails gets a new sign by another Crandon talented artist. Cierra Mills. Stop by and see her talented work. All paws salute you. Awesome job.

We reserve the right to reject any and all letters.

Tiffany Voted No on the Great American Outdoors Act

Tom Tiffany, the representative from the Wisconsin 7th Congressional District, voted NO on the Great American Outdoors Act. It still passed both the House and the Senate with over-whelming bipartisan support and was signed into law. Since the funding will come from offshore oil and gas leasing revenues income taxes will not be increased.

This legislation will benefit both conservation and the economy.

Thus, Tiffany voted against funding deferred maintenance projects at national parks, national forests, and national wildlife refuges and other conservation projects like parks, trails, and boating access sites.

He voted against a \$22 billion tourism industry. Tourists spent nearly \$14 billion in Wisconsin in 2019, generated \$1.6 billion in state and local revenue taxes, and supported 200,000 jobs.

Tiffany voted against the interests of thousands of small businesses like resorts, motels, sporting goods stores, bait shops, ski and bike shops, gas stations, cafes, supper clubs, grocery stores, and others who provide services to residents and tourists alike pursuing outdoor recreation.

Tiffany voted against those of us who use our public lakes, waterways, wildlife refuges, forests, trails, and parks for fishing, boating, swimming, hunting, skiing, snowmobiling, biking, hiking, bird watching, and just relaxing in the great outdoors.

Once again, Tiffany voted in agreement with the mining industry which strongly opposed this legislation. He also had a history of voting against conservation and in support of mining interests while a Wisconsin state senator. The Wisconsin Conservation Voters writes of his voting record, in part, "he worked in concert with out-of-state and foreign mining corporations to bring metallic sulfide mining, America's most toxic industry, back to Wisconsin with his Industrial Acid Mining Bill. In the process, Sen. Tiffany divided and misrepresented conservation groups and misled local governments. Despite saying the bill would not take away local control, Tiffany has actively threatened local governments with future legislation that would remove their ability to pass strong local protections."

As an independent voter I am writing this letter in the interest of transparency in government. I am retired from a 42 year career in fisheries, wildlife, and water quality research and management.

Thank You and Personals

THANK YOU

Thank you to all who helped in any way during my recent hospital stay and recovery. I appreciate the thoughts and prayers during this time, along with the visits during my recovery.

I could not have made it without the support from all my friends and family who helped with everything during the past weeks.

Thank you again for everything!
 Mike Childers

Dining & Entertainment

**ORDER ONLINE AT LAKEAVENUEUSA.COM
OR CALL 715-478-1010**

**SCAN HERE TO VIEW
OUR MENU ONLINE**

We at Lake Avenue respect the decision and efforts of the Crandon International Off Road Raceway to hold the 51st Annual Brush Run. Our family is in our 51st year of business in Crandon.

Lake Avenue will be OPEN, with our full menu, please check online. BUT, we will be a bit more conservative. We will be offering CALL-IN or ONLINE ORDERS only with CURBSIDE PICKUP. SORRY NO DINE-IN will be offered.

We will have delivery to the Brush Run's Red Barn fence ONLY located on Highway 8. There will be no delivery inside the grounds.

Thank You for you understanding and your support this weekend.

**LABOR DAY WEEKEND HOURS ARE
FRIDAY, SATURDAY & SUNDAY
11 A.M. - 9 P.M.**

Senior Chatter

Drivers over age 60 have until November 23 to renew their license

Release date: August 13, 2020

The Wisconsin Department of Transportation's Division of Motor Vehicles (DMV) recognizes the continuing health risk to drivers over age 60 during this pandemic and has granted them an additional 60-day extension to renew their driver license. Drivers over age 60 whose license expired after March 12, 2020 now have until November 23, 2020 to visit a DMV to renew their license.

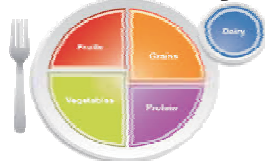

"Further extending the deadline for this at-risk population gives them more opportunity to plan their visit to a DMV Customer Service Center," DMV Administrator Kristina Boardman said. "We do not want people in this higher-risk demographic to feel that they need to renew their license when they may not be comfortable going to a DMV office."

Boardman explained that drivers can renew up to a year before the expiration date on their card. This means drivers with winter expiration dates can visit a DMV before the weather turns cold. An expired driver license is still valid for voting providing it expired after the last General Election (November 6, 2018).

To further support customers, DMV Customer Service Centers have implemented safety protocols. All DMV employees wear face coverings. Customers are encouraged to follow floor decals for social distancing and to stay behind plastic panels at service windows. In addition, services inside DMVs are limited to driver licensing or ID-related needs to promote social distancing. All vehicle related services can be done online, by mail or through a third party.

Using DMV's Driver License Guide, drivers can go online to fill in the application, submit it electronically and make an appointment which will further shorten their visit. For more information, contact: WisDOT Office of Public Affairs (608) 266-3581, opa.exec@dot.wi.gov

FOREST COUNTY COMMISSION ON AGING

Due to COVID 19

We will only have bus transportation on Tuesdays and Thursdays. The bus is only transporting within Forest County. Thank You and sorry of any inconvenience.

Conservation Corner continued from pg. 1

Pollinators are currently facing many threats, from habitat fragmentation and loss to diseases and parasites, and recent assessments suggest that 40 percent of invertebrate pollinator species may be at risk of extinction worldwide.

"Although we know forests that have recently been subjected to disturbance can be good for pollinating insects, we are only beginning to understand which groups are present and how they respond to forest management," said Jim Rivers, assistant professor in the College of Forestry at Oregon State University. Rivers researches how insect pollinators respond to natural and human-caused disturbance.
