Wabeno 2021 commencement speaker
Linda denz

Linda graduated from high school in Milwaukee in 1980. She went to UW-Milwaukee where she received her Bachelors of Science degree in Math Secondary Education in 1984. Her first teaching job was at a catholic high school in Milwaukee. She worked full-time for 4 years, then started a family. To be home more, she quit full-time teaching and started teaching a night class of calculus at Milwaukee Area Technical College. She had a second child and added on another part-time teaching job at Alverno College, a catholic college in Milwaukee. She also enrolled at UW-Milwaukee to start her Master's degree. She had daughter number three and earned her Master's degree in Curriculum and Instruction in 1994.

In January of 1997, she began working at UW Waukesha as a Math Specialist. She helped at-risk college students in math and taught some sections of college algebra.

In 2000, she moved to West Bend where she began working at UW Washington County, doing the same thing she did at UW Waukesha. Then in 2001, she decided to leave college teaching and return to high school teaching at West Bend West High School. She continued teaching until all four of her children graduated high school in 2010.

Less than one week after her youngest daughter graduated, she and her husband sold their house and moved up to their lake cabin in Mountain. In the fall of 2010, she started teaching at Crandon High School. Finally, in the fall of 2016, she arrived at Wabeno High School and taught middle school math for the first time in her career. She loved it! Now, she is happily retiring after 37 total years in education. Linda is looking forward to spending time outdoors hunting, hiking, kayaking, skiing, snowshoeing, fishing, and snowmobiling.

Sylvan Post 44 presents scholarships at Wabeno High Senior Awards Night

Jim Pleva (Education Chairman) and George Richards (Commander) presented four \$1000 scholarships that will be disbursed at the start of the second semester. Preference is given to students having a relative who is a veteran, achieving academic excellence, demonstrating leadership, and being active in the service of their school and community.

On behalf of the members and families of the American Legion Sylvan Post 44, we would like to extend our congratulations to the Class of 2021 and wish them the very best in their future endeavors.

Tips for helping to prevent oak wilt disease

It's best to avoid cutting, pruning or damaging oak trees this time of year to prevent the spread of oak wilt disease.

Oaks are most vulnerable to the disease during the growing season, especially from April 1 to July 15.

"Disease prevention is key," said Ben Walker, a silviculturist with the Chequamegon-Nicolet National Forest. "Once oak wilt becomes established, it can kill otherwise healthy trees in as little as three to four weeks."

Oak wilt is a fungal disease spread by sap-feeding beetles and underground root grafts. Through mid-July, the beetles fly and feed on new cuts and wounds on oak

For Old Time's Sake

Back in about 1910, Lake Metonga was a great place for people to gather just like it is today. Actually, all of the lake close to a town had plenty of use all over the north country. These gals are gathered for a swim by the old boat factory that was located at the north end of Metonga. It is doubtful that there was much swimming with these types of swim suits, but the girls could at least get wet while protecting their modesty! This is a photo from the Paul collection.

Office on Aging is looking for Meals on Wheels Drivers

The Office on Aging is looking for people to volunteer to deliver Meals on Wheels meals to older adults in the Argonne, Hiles, Newald, and valley area of our county. We deliver meals on Mondays, Tuesdays and Wednesdays each week and the meal pick up is at the Crandon Community Building. A car is needed, although we offer mileage reimbursement of .51 cents per mile and .50 cents per meal delivered. We offer training and the equipment you will need to deliver the meals. You can volunteer once a week, once a month, or whatever fits your schedule.

We are also looking for back up volunteers to deliver meals at all dining sites. if you are a person who may not want to volunteer on a regular basis but you are willing to help in a pinch, this may be for you.

In addition, we are looking for volunteers to help at the dining sites. There are five dining sites throughout the county. Alvin, Armstrong Creek, Crandon, Laona and Wabeno. We are looking for volunteers to welcome and check-in participants, assist with dining site activities, sit and have lunch with seniors, help meal site managers serve meals and help with clean up.

Parents are welcome to bring children and make it a family activity! High school students who are looking to earn hours for school activities, this may be what you are looking for.

Please consider volunteering and make a difference in your community. The reward is putting a smile on someone's face and getting them a much-needed meal. If you are interested in becoming a volunteer at any of the meal sites, please call Tammy Queen, Aging Director at 715-478-7712.

For Old Time's Sake

This photo is from the Colburn collection, and is likely from the Wabeno area. Traveling photographers roamed the countryside looking for photos for postcards, and it likely that these Potawatomi kids were lined up for his photo. The resulting postcard was bought and sent to others who marveled at kids living in the Northwoods of Wisconsin.

trees. They can pick up fungal spores from an infected tree and carry them on their bodies to healthy trees.

Oak wilt can be very difficult and costly to control once a tree is infected. Underground spread through root grafts is common and many oaks can be lost quickly. Once established in an area, if not controlled quickly, spread to other nearby areas is almost inevitable.

Transporting firewood also creates a chance for fungal mats under the bark to carry oak wilt to new locations.

Silviculturists recommend using local firewood and following Wisconsin firewood rules.

While oak wilt has been established in the forest's Lakewood- Laona Ranger District in northern Oconto County for more than 20 years, it was discovered more than 100 miles away in the Great Divide and Washburn ranger districts in Bayfield and Sawyer counties in 2018. Chance for control and containment in the northwest counties stand a better chance since infections are relatively new and more localized.

Oak wilt can reduce property values and recreational opportunities, while the forest products industry can also see reduced timber values.

"All landowners can help with prevention," Walker said. "The most important thing we can do is protect oak trees during the growing season."
